REPORT NO.**

THIS IS UNEVALUATED INFORMATION

25X1

THIS DOCUMENT CONTAINS UNCLASSIFIED INFORMATION AND IS NOT TO BE RELEASED TO THE PUBLIC WITHOUT THE WRITTEN AUTHORIZATION OF THE NATIONAL ARCHIVES. THE REPRODUCTION OF THIS PAGE IS PROHIBITED.

25X1

1. Work on the submarine canal near ~~Gl~~^lowe¹ has been stopped because of technical difficulties which were encountered and which cannot be overcome.
2. No more new construction projects are to be undertaken in the Baltic coast area during 1955. 1955 construction work has been limited to the expansion of existing structures at the large Volkspolizei storage depot in Torgelow and near Prerow, as well as near Bergen.
3. An underwater submarine station has been constructed about 100 meters out into the sea on the Baltic Coast near Langenhagen. The underwater station is to be used for servicing submarines. The only part of the station which extends above the surface of the water is a small tower.
